

How To Remove a Tank Nut (Walker, Lincoln, Snap On)

This particular tank nut needs a homemade socket for this job. You can make one from schedule 80 or 120 pipe, a piece of plate and a nut welded to or this way, with a socket. The local bargain tool store had some VERY cheap Chinese sockets on sale so ...

15 minutes with a cutoff wheel, a little file work to make it fit.

A little bit of impacting with the half inch drive impact gun and here it is: tank nut loose.
