MODEL 120

4000 lb.
Capacity

AIR LINK-LIFT

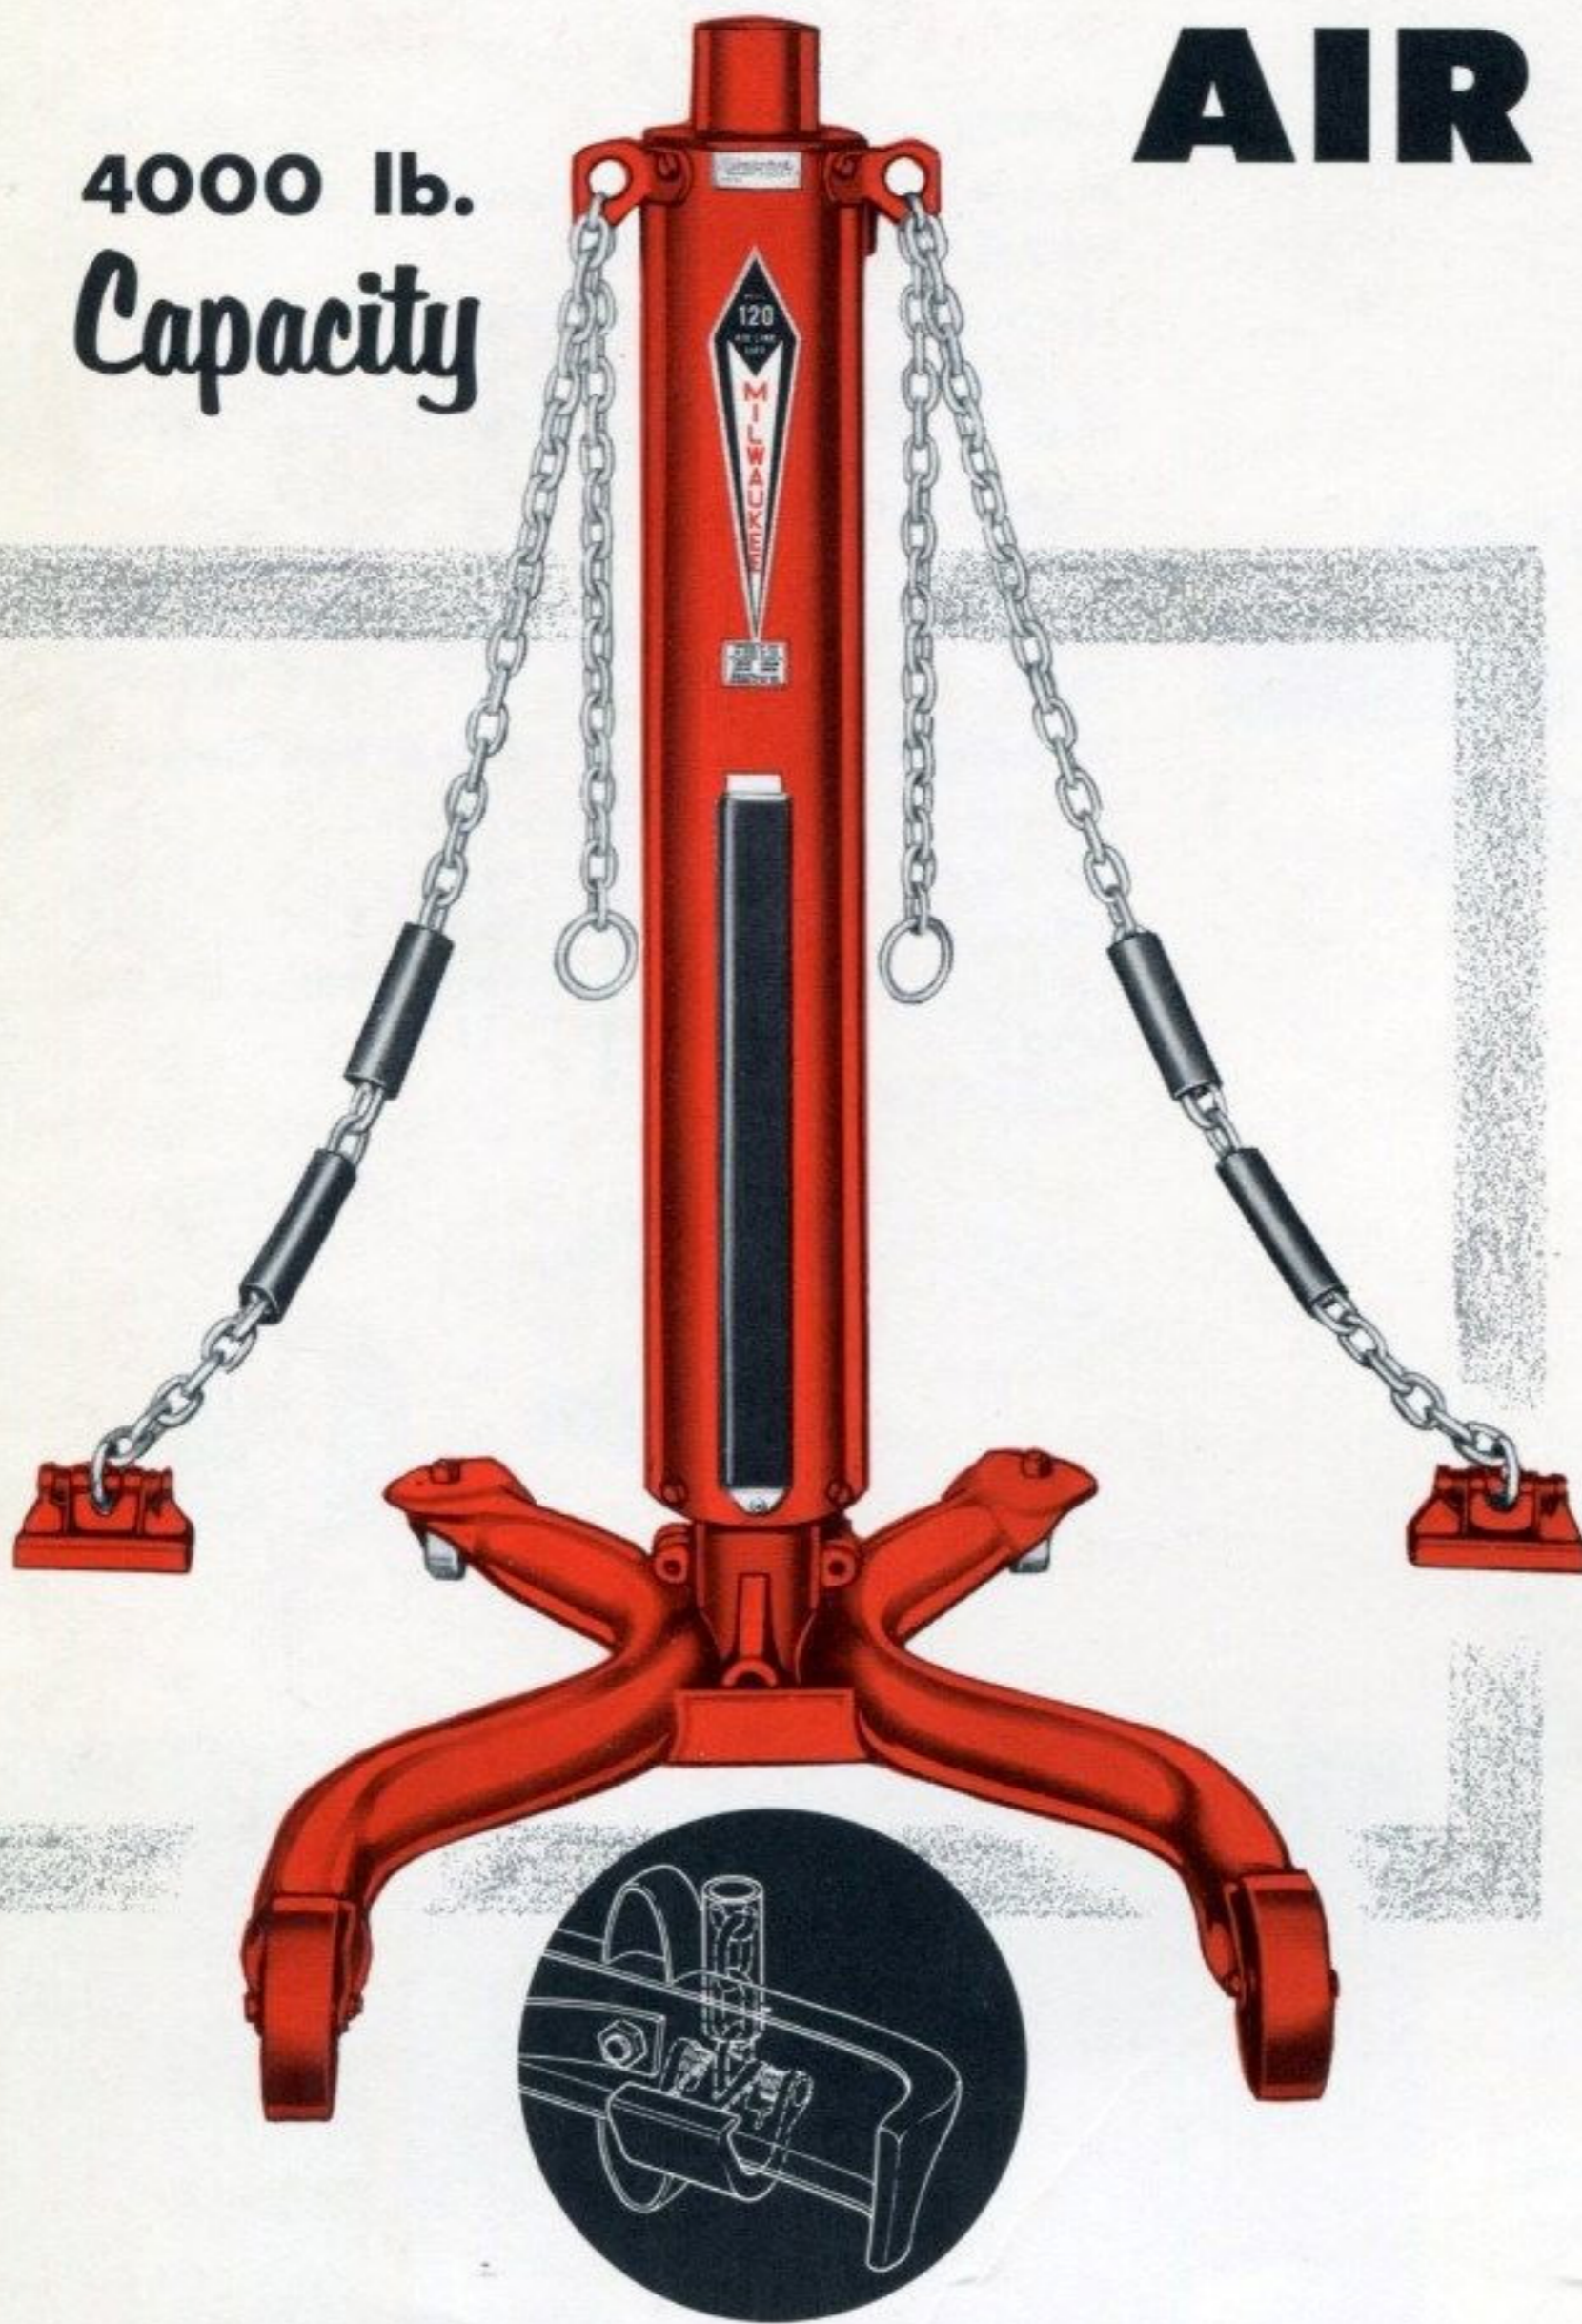

Advanced Features

HERE IS YOUR ANSWER FOR SAFELY LIFTING ALL CARS—NO EXCEPTIONS!

HANDLES GREATEST VARIETY OF LIFTING CONDITIONS

OPERATES SMOOTHLY, EFFICIENTLY, SAFELY

- Lifting grips fit old or new cars, snap in place instantly, and lift from the bumper, bumper bracket or frame cross member without bending, denting or scratching. No loss of travel regardless of starting position!
- New type air valve provides absolute and infinite control. Designed for use with quick coupler or tire-type air chuck.
- Top-cap lifting saddle, also handles, extensions, transmission carrier, etc.
- Safety is assured by automatic stop engagements.
- No frictional resistance or strain due to off-center loads.
- Piston seal is self-centering to provide long life.
- Guaranteed for one full year.

Handles all makes and models satisfactorily. Quick and easy to use.

Raises four tires in one operation with use of No. 3620 Rocker Stands.
